

RISHABH PRAKASH

SOFTWARE DEVELOPER | AI ENTHUSIAST

+91-9031981371

rishabh.prakash42@gmail.com

@rishabh-prakash

Results-oriented Software Developer with a strong focus on front-end and back-end technologies, looking for an opportunity to leverage technical expertise and contribute to innovative solutions in a prestigious organization.

Technical Skills

- JavaScript
- Angular 14
- Typescript
- NodeJS
- Mean-Stack
- Rest APIs/GraphQL
- Bootstrap
- HTML/CSS/SASS
- Python(flask)
- Highcharts
- AWS (LAMBDA, SES)
- Azure (Azure Active Directory)
- MySQL(newbie)
- React (newbie)
- Azure-open AI
- Azure AI Search

Core Competencies

Software Architecture Design

Front-end Development

Back-end Development

Web/Application Development

Requirement Elicitation

SDLC

Troubleshooting & Debugging

Database Design & Management

Cross-Browser Compatibility

Tools

- Jira
- VS Code
- Git
- Bitbucket
- Postman
- Figma

Profile Summary

- ⌚ **Proficient in Software Development Life-cycle (SDLC)**, encompassing requirements gathering, analysis, design, & coding to unit & integration testing
- ⌚ **Skilled in seamless integration** and rigorous testing of web-services through REST APIs
- ⌚ **Excels in optimizing application performance** by **addressing front-end bottlenecks** and ensuring smooth interactions and quick load times
- ⌚ **Competent in architecting self-contained, reusable, and testable modules** and components, fostering efficiency and maintainability across projects
- ⌚ **Leveraged strong knowledge of Data Structures and Algorithms** to design and optimize software components for performance and scalability; **applied Object-Oriented Programming principles** to create reusable, modular, and maintainable codebase
- ⌚ **Built robust architecture** for different solutions by managing the security, performance, availability, compliance, scalability and maintainability aspects of software development
- ⌚ **Competent in developing and managing well-functioning databases** and applications, **writing effective APIs, testing software** to ensure responsiveness and efficiency, **troubleshooting, debugging and upgrading software**, and **creating security and data protection settings**
- ⌚ **Capability to drive an independent workstream**, comfortable to **work in ambiguous, ever-changing situations** and **flexible to work collaboratively in a team**
- ⌚ Proficient in creating and managing **Azure Search indexes, skillsets, indexers, and data sources**, enabling efficient and scalable knowledge retrieval from unstructured data
- ⌚ Developed custom tagging and metadata strategies to classify documentation content, boosting precision and user experience in search-based applications
- ⌚ Applied security, performance, and scalability best practices while building and deploying AI-driven search experiences

Work Experience

Infosys Limited, Gurgaon | Specialist Programmer | Since Nov'23

- ⌚ Worked on an AI-powered knowledge management chat agent, enabling users to retrieve accurate and context-aware information using natural language queries
- ⌚ Integrated Azure Cognitive Search with indexers, skillsets, and blob storage data sources to efficiently extract, enrich, and serve structured knowledge from unstructured documents
- ⌚ Leveraged semantic hybrid search and AI enrichment pipelines to improve document discoverability and ensure contextual matching in response to user queries
- ⌚ Designed scalable data pipelines and ensured real-time synchronization between document sources and Azure Search indexes
- ⌚ Engineered robust and scalable web applications, harnessing the Angular framework's potential
- ⌚ Employed REST APIs to establish secure, authenticated connections with the backend server
- ⌚ Executing responsive designs, optimizing front-end performance for heightened user engagement and faster page load times

Quantiphi Analytics Pvt. Ltd., Bangalore | Software Developer | Aug'21-Nov'23

- ⌚ Conceptualizing, designing, and developing websites and components using Angular 14+, NodeJS, and Mongo DB
- ⌚ Actively engaging in Agile methodology, contributing to meetings, iterative development, estimations, and design sessions
- ⌚ Upheld a commitment to high code quality and adherence to tech standards, ensuring reliable and maintainable software solutions
- ⌚ Interviewing, training, and mentoring over 20 new team members, imparting Angular expertise and project understanding
- ⌚ Guided and mentored Junior Developers, imparting expertise and instilling best practices for Angular development and software engineering principles

Certifications

- Azure AI Engineer Associate
- Azure Cloud Fundamentals
- Mean Stack Course from Udemy
- MongoDB Basics from MongoDB University

Soft Skills

Time Management

Problem-Solving

Team Building & Leadership

Analytical & Critical Thinker

Planner & Communicator

Decision-Making

FreeElective Network Private Limited | Software Developer & Intern | Jun'19-Jul'21

- Translated design mockups and wireframes into impeccably precise front-end code, ensuring pixel-perfect execution
- Constructed an Admin module (CRM) using HTML, CSS, JavaScript, Bootstrap & Angular 8
- Developed back-end APIs using NodeJS, Neo4j, and MongoDB
- Spearheaded the seamless upgrade of the project from Angular 8 to Angular 10, demonstrating accountability and achievement

Education

- **2019:** MCA from National Institute of Technology, Calicut (NITC)

Awards & Accolades

- Awarded **"Rookie of the Quarter"** by Infosys Private Limited in Oct'24 for demonstrating excellence and rapid contribution as a new team member.
- Attained the **"Synergetic Perfection" Award** in May'23 from Quantiphi Analytics Solution Private Limited
- Recognized as part of the **"Justice League" Award** in Jun'22 at Quantiphi Analytics Solution Private Limited
- Achieved the **"Think Tanker" accolade** in Jan'20 from FreeElective Network Private Limited

Personal Details

- **Date of Birth:** 17th April 1993
- **Languages Known:** English, Hindi
- **Address:** Gurgaon, Haryana, India

Date: 06-07-2025

Place: Gurgaon, India
